NOTES:

- All fuel used in light vehicles for travelling on public roads (under 4.5t GVM) and in aircraft is ineligible for FTC.
- Road Transport refers to fuel used in vehicles greater than 4.5t GVM for travelling on a public road.
- "All off-road Activities" includes categories of fuel usage previously referred to as "primary production activities" (i.e. agriculture, fishing and forestry), "non-fuel uses" and "other off-road activities".
- FTC Rates for Gaseous Fuels (LPG, LNG, CNG) only apply to gaseous transport fuels on which excise has been paid. Different rates apply to Non-transport gaseous fuels on which no excise has been paid.
- All Road Transport Rates are dependent on the Road User Charge which is subject to change.
- All rates are subject to change in accordance with bi-annual excise indexation.
